Universal Design

Universal Design is all around us, though we might not always take notice. Every member of your family can benefit from universal design concepts.

Seven key principles of Universal Design

Equitable use

The design is useful to people with diverse abilities

Flexibility in use

The design accommodates a wide range of individual preferences and abilities

Simple & Intuitive

Use of the design is easy to understand, regardless of the user's experience, knowledge, language skills, or current concentration level

Perceptible information

The design communicates necessary information effectively to the user, regardless of ambient conditions or the user's sensory abilities

Tolerance for error

The design minimizes hazards and the adverse consequences of accidental or unintended actions

Low physical effort

The design can be used efficiently and comfortably and with a minimum of fatigue

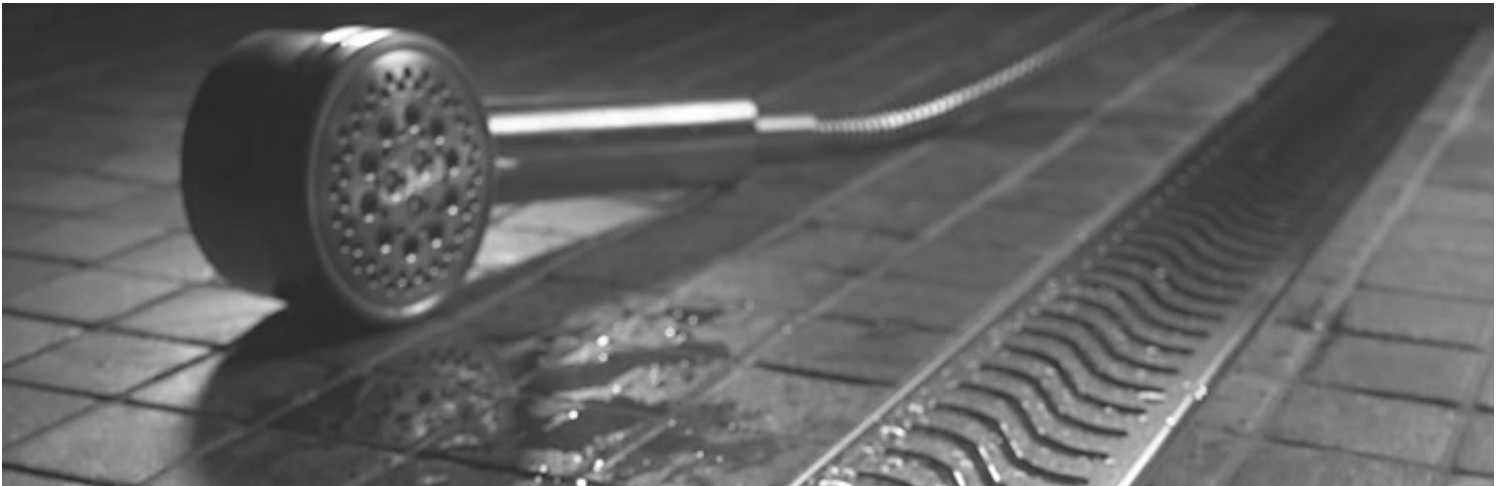

Size & Space for Approach & Use

Appropriate size and space is provided for approach, reach, manipulation, and use regardless of user's body size, posture, or mobility

Your home modification resource

When the need arises to modify your bathroom to better suit the changing lifestyle of your family members, the Wilkinson showroom allows you to envision the changes that you plan to make to your home.

We offer a number of decorative options to meet your lifestyle and sense of style. Our full suite of products and services are enhanced by our expert showroom staff, local relationships, and attention to detail.

We are here to help

Whether you want to transform your bathroom into a more comfortable and luxurious space, or simply enhance particular aspects of your home to meet changing needs, Wilkinson can provide you with the comprehensive solution you are looking for.

When it comes to construction, our trusted partners can meet all your needs including kitchen modification, doorway widening, new door hardware or exterior ramps.
